

Select 1 Transport Achieves ISO 9001:2008

Certification validates and strengthens existing operational structures.

Taylor, MI – **Select 1 Transport**, a global leader in specialized vehicle transportation, managed automotive logistics, and event marketing logistics, has announced full implementation of the ISO 9001:2008 certification process as of December 7, 2009.

The stated quality policy of the company has also been formalized: “Exceeding customers’ expectations every time through on time delivery and damage free service.”

All processes are now fully implemented throughout the company nationwide. Formal finalization is effective April, 2010.

During the certification process, Select 1 Transport personnel were pleased to see many of their existing operations were already ISO 9001:2008 compliant.

“The ISO 9001:2008 certification validates our long standing customer service protocols and streamlines all of our processes,” said Pat Evo <<link: select1.com/biography.html>>, Vice President and General Manager of Select 1 Transport.

The ISO 9001:2008 certification audit focused on protocols pertaining to critical information, customer requirements, final operations, and dispatch.

“Select 1 Transport has long embraced a process-driven quality system. With final ISO 9001:2008 certification, our customers can be further assured our systems promote stellar performance as well as accountability and documentation,” said Gary Carlson <<link: select1.com/biography.html>>, President and CEO of Select 1 Transport.

Select 1 Transport has long been involved in crucial compliance and participation with the Canadian and American governments. This involvement permits trouble-free border crossings and serves as a major advantage for its customers.

Select 1 Transport is enrolled in **Canada Border Service Agency’s** (CBSA) Partners in Protection (PIP) and the U.S. **Department of Homeland Security’s** C-TPAT and FAST programs. Also, the company is wrapping up the certification process for the Customs Self Assessment Program (CSA) and is approved with the Transportation Security Administration (TSA) as well as enrolled in the TWIC program, allowing for loading and unloading at the nation’s airports and ports, respectively.

About Select 1 Transport:

Founded in 1997, Select 1 Transport focuses on specialized automotive transport, event marketing, privately owned vehicles, and managed global logistics. The company quickly expanded to become a single-source transportation and logistics resource, utilized by the world’s leading automakers, advertising agencies, and exhibit builders.
